I. Purpose and Scope

A. Purpose.

This Policy governs University courses, including how courses shall be offered and approved, what units within the University may offer courses, who may teach University courses, when final examinations are conducted, what the standards are for course credit (i.e., credit hours), when essential course information is made available to students, how courses are assessed and feedback is provided to instructors, what attendance requirements are, and how instructors may accommodate students' scheduling conflicts and accommodate students' objections to the substantive content of particular courses. These policies bear upon the responsibilities of individual instructors, students, course-offering units and the University administration. This Policy applies to all course-offering units [See Section III.R.Note i].

B. Scope.

[reserved]

II. Definitions
The following definitions apply for the limited purposes of this policy and any associated regulations.

A. “Academic action” means the recording of a final grade (including credit/no credit and pass/fail) in a course, on a comprehensive or qualifying examination, on a culminating project, or on a dissertation or thesis. It also includes a decision by the appropriate department or college committee to place a student on academic probation, or to suspend or dismiss a student from an academic program because the student failed to meet the relevant academic standards of the discipline or program. The term “academic action” does not include the decision by a department or program to refuse admission of a student into an academic program. Academic action also does not include academic sanctions imposed for academic misconduct or for professional misconduct.

B. “Academic Appeals Committee” means a committee established in Policy 6-410.

C. "Arbitrary or Capricious" means without a principled basis or in a manner that substantially deviates from applicable policies.

D. “Course-offering unit” -- is an academic unit authorized to offer credit-bearing courses and bearing primary responsibility for the content, instruction and evaluation of such courses.

E. Credits and Admissions Committee-- is the committee established by and described in Policy 6-404-III-A.

F. Academic Advising Center -- is the academic administration unit established by and with functions described in Policy 6-101.

G. University Curriculum Policy Review Board-- is the board established by and with functions described in Policy 6-500-III-B-2.

III. Policy

A. The Academic Year
1. The academic year shall be divided into a Fall and Spring semester of approximately fifteen weeks each and a Summer term of approximately twelve weeks. A semester may be subdivided into two sessions of approximately eight weeks each and the Summer term may be subdivided into two sessions of approximately six weeks each.

B. The Credit Hour

1. A University credit hour shall represent approximately three clock hours of the student's time a week for one semester.

C. Standards for Undergraduate Credit-Bearing Courses [See Section III.R Note ii]

1. Courses are developed by course-offering units and academic administration in compliance with University Regulations and any applicable regulations of the State Board of Regents. In keeping with the principles of faculty shared governance Policy 6-500 and Policy 6-001-III-A, courses shall be approved by the faculty members of course-offering units before being submitted for higher-level approval. While faculty must play a major role, comparability of credits across the University should be maintained. The methods of instruction, time taught, or sites should make no difference in the integrity of the credit hour.

2. Credit should be given only to those courses which apply toward completion of requirements for a certificate or degree at the University. Consistent with Regent's Policy R470, the University does not offer credit for courses defined as remedial. No credit should be assigned to any course whose purpose is only to qualify students for financial aid.

3. Courses should be appropriately rigorous, complex and numbered at comparable levels as determined by the course-offering unit, college curriculum committee, and University review processes. "Credit awarded for successful educational performance should reflect comparable quality and be uniformly defined within an institution, regardless of the methods of
instruction used, the time when the course is taught" [See Section III.R Note iii] or the site.

4. Courses may be offered only by the teaching staff and with the approval of academic administration. Courses should be taught, evaluated, or directly supervised by an instructor approved by the course-offering unit, whose teaching qualifications meet the criteria adopted by the course-offering unit in furtherance of the University's commitment to excellence in teaching. See Policy 6-303 (qualifications of tenure-line faculty teachers) and Policy 6-310 (qualifications of other faculty and non-faculty teachers).

5. Essential course information shall be made available to enable students to make informed decisions in choosing among courses and setting schedules. It shall be made available at least one week before the first day of class in any semester or session in which the course is offered, if an instructor has been assigned to the course three or more weeks before that first day, and otherwise as early as is practical. The essential course information may be made available as part of the course syllabus or separately, and should include (a) the goals and objectives of the course, (b) the course expectations, including the activities essential for earning credit and those on which grading is based, and (c) if applicable a preliminary schedule for the major examinations and assignments.

6. Credit hours and student workload per credit hour should be comparable across courses and course-offering units, taking into account special requirements of accrediting agencies. Catalog, curriculum guide, and syllabi should accurately reflect the work load and the work load should be commensurate with the credit hours awarded. It is generally expected throughout the University that there is at least one hour in class and two hours outside of class per week or the equivalent combination connected to every credit hour for the appropriately prepared student. In laboratories it is expected that at least 2 to 3 hours are spent in class and approximately the same amount outside for each credit hour awarded. Where these minimums
are exceeded, the approximate workload should be made clear in catalog
descriptions, advising materials, and course syllabi.

7. Courses of one hour or less are usually graded as credit/no credit.

8. The learning outcomes and requirements must be assessed appropriately.

9. Credit-bearing courses must be recorded on the student’s permanent
academic record (transcript).

10. The faculty and academic administration need to provide policies for allowing
students to repeat courses. These should be clearly communicated and
coordinated across course-offering units.

11. Acceptance of transfer credits depends upon quality of instruction from the
sending institution, comparability of the nature, content, and level of credit
earned, and appropriateness and applicability of credit to the University and
the student’s educational goals.

12. Rules regarding the acceptance of transfer credits are approved by the
Academic Senate, based upon recommendations made by the Credits and
Admissions Committee (See Policy 6-404-III-3)

D. Class Meetings

1. Classrooms and hours shall not be changed without the consent of the
director of scheduling.

2. Classes shall begin promptly, be dismissed promptly, and take precedence
over any special examination or exercise not a part of the official University
calendar unless such examination or exercise is authorized by the Academic
Senate.

E. Course Numbers

1. Courses of instruction shall be classified and numbered in the publications
and records of the University in accordance with the rules developed by the
University Curriculum Policy Review Board and approved by the Executive Committee of the Academic Senate. See Policy 6-003-Sec. III.B.3.

F. Final Examinations

1. Final examinations shall be given under regulations as determined by the Academic Senate. When they are required, in-class final examinations must be given at times officially set. A schedule for such examinations shall be prepared by the Scheduling Office and published by the University.

G. Grades

1. General Grading Criteria

b. The criteria for grading students shall be performance in examinations, papers, or assignments, participation in class discussion and activities, and other evaluative processes necessary in determining the students' achievement levels. All of these Procedures may be part of the total evaluation, as adapted by the individual course instructor to fit the needs of the particular course and student.

c. Grading of individual student performance shall be performed consistent with the University's fundamental principles prohibiting discrimination on improper grounds and requiring that academic activities be performed without prejudice or favoritism based on family, romantic, or sexual relationships, or financial interests. See Policy 1-012 University Non-
discrimination Policy, Policy 6-316- Sections 4-A & B (Faculty Code---prohibitions on discrimination, prejudice, or favoritism in grading); Policy 6-400 (rights against discrimination and sexual harassment); Policy 1-020 (defining “immediate family” relationships in which favoritism is presumed to exist) and Sexual Harassment and Consensual Relationships—prohibiting exercising of grading authority when a romantic or sexual relationship exists; and Rule R1-006D (prohibiting evaluation of students based on participation in outside business activities in which evaluator has significant financial interest). These principles apply to any person engaged in grading activities, including course instructors and their assistants. Course instructors and course-offering units shall take appropriate steps to ensure the application of these principles, including providing for alternative grading methods or assignment of grading responsibilities to another person, as appropriate to the circumstances.

2. Incompletes

a. The mark "I" (incomplete) shall be given and reported for work incomplete because of circumstances beyond the student's control. The grade of "I" should be used only for a student who is passing the course and who needs to complete 20% or less of the course. An "I" should not be used in a way that will permit a student to retake the course without paying tuition. If the student attends the course during a subsequent semester as part of the effort required to complete the course, the student must be registered (either as a regular student or for audit) in the semester in which the student attends.

b. If a student has not finished incomplete work within one calendar year after the "I" was given, the "I" will be changed to an "E" by the Registrar's office. If the student graduates within one calendar year after receiving the "I," but before completing the work, the "I" will remain in the record, but will not contribute to credit toward graduation or the grade point average. An instructor may override the automatic change from an “I” to
an "E" by submitting a grade change form (see Sec. I, "Change of Grade," below).

3. Non-Attendance and Non-Performance

a. The grade of "EU" (Unofficial Withdrawal) is given when a student's name appears on the registrar's final grade report but there is no record of attendance or other evidence of participation in the course. The "EU" grade is treated as an "E" in calculating the student's GPA. When no grade is entered for any person listed in a final grade report, the Registrar shall record an "EU" for that person. The grade "EU" shall be treated as an "E" in calculating grade point averages, but it shall be disregarded in calculating "section mean grade."

b. Upon the recommendation of the course instructor and the dean of the course-offering unit (or equivalent), the Registrar may withdraw a student from a course for nonattendance or nonperformance of assigned course work. The student shall then receive the grade of "E." Before this grade is recorded under these circumstances, the Registrar shall send written notification to the student and advise the student of the right to appeal to the dean.

4. In-Progress Courses

a. The mark "T" may be given for thesis or other independent work in progress, but not for regular courses. The mark "T" shall remain on the student record until the work is completed and a letter grade is reported to the Registrar's office. The mark "T" does not contribute credit toward graduation nor will it be used in the computation of the grade point average. There is no time limit governing the removal of the "T" grade.

5. Adding, Dropping and Withdrawing From Courses

a. Students may add or drop any course in a regular 15-week University semester without penalty for a period extending through the second
Friday after the first day of the term. Beginning the following day and continuing through Friday of the first full week beyond the midpoint of the term (as determined by the Registrar), students may withdraw from a course or from the University without permission, but a "W" will be recorded on the academic record and applicable tuition and fees will be assessed for each course. The latter date is the final day on which a student may withdraw from a course or from the University.

b. Deadline for courses less than a 15-week semester will be pro-rated based upon full-semester rules, including terms, workshops, short-sessions, inter- sessions, or non-credit courses.

c. Students may withdraw from workshops, short term courses, or non-credit courses following the drop deadline for such courses only up to the midpoint in the course (as determined by the Registrar). Any withdrawal after the initial drop period will cause a "W" to be recoded on the academic record and applicable tuition and fees will be assessed for the course.

d. Students taking regular term courses may appeal the deadline for withdrawal in the case of compelling, non-academic emergencies by submitting a petition and supporting documentation to the office of the dean of their major college. Undeclared, non-matriculated and premajor students apply to the Academic Advising Center. Students in workshops, short term courses, or non-credit courses shall appeal to the Academic Outreach and Continuing Education. Appeals must be submitted to the appropriate dean's office by the last day of regular course instruction preceding the final exam period.

e. Colleges must respond to an appeal from a student within seven calendar days of receiving the petition.

f. For extraordinary reasons, approved by the student's dean and the Registrar, the grade of "W" may be given after the end of the term. Such
requests must be submitted within three years of the affected term(s) or prior to graduation from the University, whichever comes first.

6. Repeating Courses

a. Students may repeat any course they have previously taken at the University as long as it is still offered. However, students may earn credit hours for a given course for graduation only once unless the course has been designated as repeatable for credit. The last grade received is used to compute the student's grade point average (and grades from previous instances of the same course are not considered in computing the GPA, but are shown on the record for the term the course was taken). The grades of I, NC, W, V, or T may neither be removed by repeating the course, nor may they be used to replace a grade in a previous course that has been repeated. All repeated courses are identified as such on the student's academic record.

i. An undergraduate student shall ordinarily be limited to three attempts at taking any particular course (the initial taking, and subsequent retaking twice). An “attempt” for this purpose is defined as the receipt of any letter grade for the course (including A through D, or I, E, EU, NC, W, V). A student must meet with their academic advisor before attempting a course for the third time.

ii. An exception allowing further retaking beyond the three-attempt limit may be granted only as follows: The student must meet with their academic advisor, who shall make a recommendation as to whether the student should be permitted any further attempt. The dean (or equivalent) of the course-offering unit, after considering that recommendation and other relevant facts, shall make the final decision to allow or not allow the further attempt, and shall communicate that decision to the student and the University Registrar. The dean’s decision is the final decision of the University (is not an academic action appealable under Section III.J).
7. Credit/No Credit Option

a. In courses in which activity or attendance is the controlling factor in the determination of grades, the grade "CR" (credit) shall be substituted for the grades "A" through "C-" and the grade "NC" (no credit) shall be substituted for the grades "D+" through "E."

b. Under Rules approved by the Academic Senate, students may elect a limited number of courses in which they will receive the grade "CR" in place of grades "A" through "C-" or the grade of "NC" in the place of "D+," "D," "D-," "E" and "EU". The "CR" grade shall carry credit toward graduation, but neither the "CR" nor "NC" grades will be included in computing grade point averages.

c. A graduate student is granted the option, subject to the approval of the administrator of the course-offering unit and the cognizant dean (or equivalent) of the student's major department and review by the graduate dean, to enroll in some courses in which the graduate student will be graded on a CR/NC basis, rather than on a letter basis.

d. Courses which produce one hour or less of academic credit should be graded exclusively on a CR/NC basis. Instructors wishing to assign a letter grade to such courses, or to grade other kinds of courses, solely on a Credit/No Credit basis must obtain permission to do so from the relevant college's curriculum committee.

8. Course Credit Reduction

a. A reduction in course credit may be used in "studio-type" or in independent study courses only. Individual departments may determine which of their courses should use this option. No foundation courses, or courses used to satisfy either General Education or Bachelor Degree requirements, courses for which completion of the full semester's work is essential for a graduation requirement may be involved. The intent of this policy provision on course credit reduction is to let the grade reflect the
quality of work—and the credit earned reflect the quantity of work completed in this type of course. If a student fails to complete the volume of work they contracted to do for such a course, the instructor and student may agree to reduce the credit earned and the student is graded on the quality of work completed. The deadline for making the adjustment corresponds with the last day of classes prior to final exams.

9. Auditing a Course

a. An audit grade can be elected in credit courses when no grade is desired. A student may audit a course if it is not available to be taken as non-credit, and/or if the student wants to attend the course for their own personal benefit. Students auditing a course are not held responsible for completing course work or taking examinations during the course. An audited course will show on a student's transcript with a 'V' grade and '0.00' as the awarded number of credit hours. Audited courses are not included in the student's GPA calculation.

H. Reports of Grades

1. Instructors shall report the academic standing of each student in their courses at such times and in such form as the Registrar may direct, subject to the approval of the Academic Senate. At the end of each semester, the Registrar shall report the grades of each student to the student. Students shall not receive credit for work done in a course in which they have not been regularly registered or receive credit greater in amount than that for which they are duly registered.

I. Change of Grades

1. A final grade, after it has been formally reported to the Registrar’s office, cannot be changed unless the instructor who awarded the grade requests a change on a form provided for this purpose by the Registrar, and unless that request is approved by the course-offering unit. A grade can be changed
without the instructor’s request or approval in accordance with the appeal process described in Section III.J.

J. Appeals of Academic Actions

1. For purposes of this section, “Notice” or “Notification” refers to the date of delivery if notification is delivered personally or ten (10) business days after the time of postmark if the notification is mailed by U.S. mail. In the case of grades, notification refers to the date the grades are available on the World Wide Web. Correspondence to a Umail address is considered Notification for purposes of this policy.

2. A student who believes that an academic action is arbitrary or capricious should, within twenty (20) business days of notification of the academic action, discuss the academic action with the involved faculty member and attempt to resolve the disagreement. If the academic action results from the decision of a committee, the chair of the committee is the involved faculty member for purposes of this policy. If the faculty member does not respond within ten (10) business days, if the student and faculty member are unable to resolve the disagreement, or if the faculty member fails to take the agreed upon action within ten (10) business days, the student may appeal the academic action in accordance with the following procedures. It is understood that all appeals and proceedings regarding academic actions will initiate with the faculty and administrators in the college or program offering the course in question. If the course is cross-listed, appeals and proceedings shall take place with the faculty and administrators offering the section for which the student is registered.

3. Appeal to Chair of the Department or Dean’s Designee. Within forty (40) business days of notification of the academic action, the student shall appeal the academic action in writing to, and consult with, the chair of the relevant department regarding such academic action. Within fifteen (15) business days of consulting with the student, the chair shall notify the student and faculty member, in writing, of the determination of whether the academic
action was arbitrary or capricious and of the basis for that decision. If the chair determines that the academic action was arbitrary or capricious, the chair shall take appropriate action to implement their decision unless the faculty member appeals the decision. If the chair fails to respond in fifteen (15) business days, the student may appeal to the Academic Appeals Committee.

a. In colleges without departments, the Student shall appeal in writing to the dean of the college. The dean of the college shall appoint one or more faculty members from the college to serve as chair for purposes of these procedures. In cases where the appeal occurs in a program that does not report directly to an academic dean, but rather to an associate vice president, the cognizant program director shall serve as department chair, and the cognizant associate vice president shall serve as dean for purposes of these procedures.

4. Appeal to Academic Appeals Committee. If either party disagrees with the chair's decision, that party may appeal to the Academic Appeals Committee of the college that offered the course within fifteen (15) business days of notification of the chair's decision in accordance with the procedures set forth in Section III.J.5.

5. Proceedings Before the Academic Appeals Committee

a. The Academic Appeals Committee shall follow the committee composition and proceedings established in Policy 6-410.

b. To overturn the original Academic Action, the Committee must find that the Academic Action was arbitrary or capricious

c. The Committee chair shall prepare a written report of the Committee's findings and recommendations and present it to the dean of the college, or designee, within ten (10) business days after the conclusion of the hearing.
6. Review and Decision by the Dean or Designee

a. The dean of the college, or designee, shall consider the documentation submitted to the Committee and the findings and recommendations of the Committee in making a decision. Based upon such review, and without conducting further hearings, the dean of the college, or designee, shall, within ten (10) business days, take one of the following actions:

i. accept the Academic Appeals Committee's findings and recommendations;

ii. return the report to the Committee chair, requesting that the Committee reconvene to reconsider or clarify specific matters, materials, and issues, and forward to the dean of the college, or designee, a second report of its findings and recommendations relating to the specific matters referred by the dean of the college, or designee, for further consideration; or

iii. reject all or parts of the Committee's findings and recommendations, stating reasons and actions to be taken therefore.

b. Written notification of the dean's, or designee's, decision shall be communicated to the parties, to the chair of the Academic Appeals Committee and to the cognizant senior vice president within ten (10) business days after receipt of the recommendation.

c. The dean's, or designee's, decision is final unless appealed to the cognizant senior vice president within ten (10) business days after receipt of the decision.

7. Appeal to Cognizant Senior Vice President

a. Within ten (10) business days of receipt of the dean's, or designee's, decision, any party may appeal the decision by filing a written notice of appeal with the senior vice president for academic affairs or the senior vice president for health sciences, as appropriate, and delivering a copy
to the other party. The other party may file a response to the appeal with the senior vice president within five (5) business days of receipt of the notice of appeal. In the case of an appeal:

b. The vice president shall consider the appeal and response to the appeal, and may solicit whatever counsel and advice the vice president deems appropriate to arrive at a final decision. The vice president may also convene an ad hoc committee composed of students and faculty members from outside the college or department to determine if there were substantial defects that denied basic fairness and due process. After receiving the appeal, the vice president shall within ten (10) business days, or within twenty (20) business days if an ad hoc committee is formed, take one of the following actions:

i. accept the decision of the dean of the college or designee;

ii. return the report to the dean of the college, or designee, requesting clarification on specific matters, materials, and issues, and forward to the vice president a second report of the dean or designee decision relating to the specific matters referred by the vice president for further explanation; or

iii. reject all or parts of the dean's, or designee's, decision, stating reasons and actions to be taken therefore.

c. Written notification of the vice president's decision and the basis for that decision shall be communicated to the parties, to the chair of the Academic Appeals Committee and to the dean within ten (10) business days after receipt of the appeal, or within twenty (20) business days after receipt of the appeal if an ad hoc committee is formed.

d. The decision of the vice president is final. At the conclusion of the appeals process, the chair of the department or dean of the college considering the academic appeal shall take appropriate action to implement the final decision.
8. Copies of Documents to Department Chair. During the appeals process and at the time they are submitted, the following documents should be copied to the chair of the department considering the academic appeal: the first written appeal, all subsequent appeals, all responsive documents, and all written recommendations or decisions made at each level of the appeal.

9. Programs That Do Not Report to Academic Deans. In cases where a program does not report directly to an academic dean, the program director will serve as department chair, and the cognizant associate vice president will serve as dean for purposes of these proceedings. Any ambiguity concerning appeal procedures for courses offered in a program (e.g., determination of the relevant Academic Appeals Committee) shall be resolved by the program director, in consultation with the cognizant associate vice president, and in a manner that preserves the spirit and intent of this policy.

K. Academic Standards for Undergraduates

The Undergraduate Council shall have jurisdiction over the academic standards for undergraduates and shall delegate to Academic Advising Center the responsibility for administering the academic standards policy.

1. Dean's List Recognition for Superior Academic Performance. A student who earns a grade point average of 3.5 or higher in at least 12 graded hours during any one term shall be placed on the Dean's List.

2. Minimum Required Cumulative GPA and Academic Non-Performance. In order to remain in the status of good academic standing at the University each enrolled undergraduate student is required to maintain a cumulative grade point average of not less than 2.0. The cumulative grade point average of a student who has transferred to the University is computed on the work taken at the University of Utah only. Any student whose cumulative GPA falls below that minimum level shall be subject to the status changes as described below (academic warning, academic probation, academic suspension, or
academic dismissal). These status changes governed by this Policy are based on grounds of academic non-performance, and are distinct from and administered through processes separate from the status changes of probation, suspension or dismissal due to a Sanction for a violation of the student behavior standards described in Policy 6-400 or academic misconduct or professional misconduct described in Policy 6-410.

3. Academic Warning and Academic Probation. A student who fails to maintain a cumulative grade point average of 2.0 or above shall be placed on academic warning and have a hold placed on their course registration. To clear this hold, the student must contact Academic Advising Center to determine the conditions under which the student will be allowed to register. A student already on academic warning whose cumulative grade point average and also most recent semester grade point average are below 2.0 will be placed on academic probation, will have a hold placed on course registration, and will be required to meet with and satisfy conditions determined by Academic Advising Center to be allowed to register.

4. Academic Suspension: A student whose cumulative grade point average and semester grade point average have been below a 2.0 for three consecutive semesters is subject to academic suspension. A registration hold will be placed on the student’s record and will prevent the student from registering for courses at the University during the academic suspension period. The academic suspension period will be for a minimum of three (3) semesters, and after completing the suspension period, if the student wishes to return to the University, the student must apply for readmission per Section III.K.6 below.

5. Appeal of Academic Suspension (and Reinstatement to Probation Status). A student who has been suspended per Section III.K.4 and has not yet completed the full period of suspension may appeal the academic suspension, based on extenuating circumstances, to the Academic Standards Committee of Academic Advising Center. If the Committee finds
extenuating circumstances and revokes the academic suspension, the student will be reinstated with the status of academic probation and permitted to register for courses. The student must maintain a grade point average of at least 2.0 during each subsequent semester until the student's cumulative grade point average reaches 2.0 and comply with such further conditions as the Committee determines necessary during probationary status, consistent with Section III.K.1.c above. A student who does not meet these conditions will be returned to the status of suspension for the prescribed period.

6. Readmission after Academic Suspension. A student who has been academically suspended per Section III.K.4, served the full period of suspension, and wishes to subsequently return to the University, must first obtain a favorable recommendation from the Academic Standards Committee of Academic Advising Center, and then apply for readmission to the University pursuant to Policy 6-404. The student will initiate the process by first submitting to Academic Advising Center a request for a review and recommendation by the Academic Standards Committee. The Committee will issue a recommendation in favor of readmission for the student if there seems a reasonable likelihood of academic success, and may include recommendations as to appropriate conditions for readmission. If the Committee issues a favorable recommendation, the student may then apply to the University's Office of Admissions for readmission to the University, as governed by Policy 6-404-III-F. If the student is readmitted, the student must maintain a grade point average of at least 2.0 each subsequent semester until the student's cumulative grade point average reaches 2.0, and comply with any other conditions imposed in the readmission process. A student who does not meet these conditions of readmission is subject to academic dismissal.

7. Academic Dismissal. A student who has been academically dismissed due to the provisions described above will not be eligible to register for courses, cannot regain such eligibility except through the process of readmission to
the University, and will not be so readmitted unless the student is found qualified for academic renewal (as described in Section III-M below). An academically dismissed student wishing to return to the University must first petition Academic Advising Center for a finding that the student is qualified for academic renewal and a recommendation in favor of readmission. If Academic Advising Center makes such a finding and favorable recommendation (which may include recommendations of conditions for readmission), the student may then apply to the Office of Admissions for readmission to the University, as governed by Policy 6-404-III-F.

L. Honors for Undergraduates

1. Honors shall be awarded at graduation to those students who complete with distinction at least 90 credit hours at the University. The basis, terms, and degrees of distinction shall be determined by the Academic Senate. Names of students attaining honors shall be published in the commencement program and elsewhere as the president may direct.

M. Academic Renewal

1. A currently enrolled undergraduate student may petition Academic Advising Center for academic renewal. This is a Procedure which allows the student to request that their academic record be reviewed for the purpose of discounting, University of Utah courses with a D+ or lower grade on the student’s academic record. The courses must have been taken seven or more calendar years prior to the request. If approved, the discounted courses will remain on the student’s academic record (and the grades received for the courses will be shown), but the discounted courses and grades received for them will not count towards total hours, cumulative grade point computation, or graduation requirements.

2. The renewal option can be used only once during a student’s undergraduate career. This Procedure does not apply to graduate students or to students pursuing a second undergraduate degree.
3. Responsibility for administration of this Procedure rests with the Office of the Vice President for Academic Affairs.

N. Course Assessment and Feedback (course evaluations)

The University will assess its courses and instruction in multiple ways, including by soliciting students' feedback. Student feedback has several uses: it provides information of interest to students planning their programs of study, it is useful in making improvements in instruction and curricula, and it provides a student perspective on teaching for evaluations of course instructors. See also Policy 6-400 (students' rights regarding evaluations of faculty members).

1. Senate Advisory Committee on Student Course Feedback, structure and functions.

   a. The Senate Advisory Committee on Student Course Feedback (SACSCF) is a standing committee of the Academic Senate, established by Policy 6-002-III-D, with membership and leadership as there described.

   b. The Committee's primary function shall be to evaluate and provide input and oversight for the development and revision (as necessary) of standardized "Student Course Feedback Instrument(s)," "and standardized "Course Feedback Report(s)." The instrument(s) and report forms shall be designed to be suitable for use in all credit-bearing courses, of both undergraduate and graduate levels. The Committee shall also develop appropriate procedures for the administration of instrument(s) and report forms (and other appropriate publication of the resulting data). In evaluating, developing, and periodically revising instrument(s) and report forms and procedures, the Committee shall solicit and consider input from the chairpersons of all course-offering units. The Committee shall confer with the Senate Faculty Review Standards Committee and relevant administrators regarding the use of course feedback results in conjunction with reviews of teaching performance of faculty members and non-faculty instructional personnel.
(Policies 6-303 and 6-310). The instrument(s), report form(s) and procedures shall be presented to the Academic Senate for approval. The instrument(s), report form(s), and procedures will be continuously evaluated by the Committee. Reports on the evolution of the instrument(s), report form(s), and procedures, as well as any proposed revisions, shall be presented to the Academic Senate every four years.

2. The approved Course Feedback Instrument(s) and Report forms shall be made available for use by all course-offering academic units. All credit-bearing courses shall be assessed every term they are offered using approved Instrument(s). Chairpersons of each course-offering unit have the responsibility of seeing that assessments are conducted according to regulations, working with the Student Course Feedback Program Manager. For non-credit courses, assessments may be conducted as determined in the discretion of the course-offering unit.

   a. Course feedback for individual courses, including all collected data, shall be made available to course instructors, and appropriate administrators of the course-offering unit after grades for the course are filed.
   b. An appropriate set of data for a given course shall be made available to any University student, as determined appropriate in the standard Report form and Procedures approved as described above.
   c. The Student Advisory Committee of the course-offering unit, after meeting pertinent training requirements, shall be provided with an appropriate set of feedback data for individual courses for specified purposes of carrying out approved functions of such Advisory Committees, as determined appropriate in the Procedures approved as described above.

O. Attendance Requirements
1. The University expects regular attendance at all class meetings. Instructors must communicate any particular attendance requirements of the course to students in writing on or before the first class meeting. Students are responsible for acquainting themselves with and satisfying the entire range of academic objectives and requirements as defined by the instructor.

2. Students absent from class to participate in officially sanctioned University activities (e.g., band, debate, student government, intercollegiate athletics), or government obligations (e.g., military duty), or religious obligations, or with instructor's approval, shall be permitted to make up both assignments and examinations. The University expects its departments and programs that take students away from class meetings to schedule such events in a way that will minimize hindrance of the student's orderly completion of course requirements. Such units must provide a written statement to the students describing the activity and stating as precisely as possible the dates of the required absence. The involved students must deliver this documentation to their instructors, before the absence.

3. Except in cases of sudden illness or emergency, students shall in advance of the absence arrange with the instructor to make up assignments.

4. Unexpected University facility closures due to weather, emergency or disaster may occur from time to time. Students may be required to complete coursework missed due to these or other class cancellations; however, instructors requiring mandatory make-up sessions may not penalize students if they are unable to attend due to time conflicts, etc.

P. Noncredit Courses

1. Course development procedures for noncredit courses should be academically sound and as rigorous, though perhaps different, as those applying to credit courses.

2. The national standard for Continuing Education Units (CEU) is "ten contact hours of participation in an organized continuing education experience under
responsible sponsorship, capable direction, and qualified instruction.” The CEU may be the appropriate unit of measurement for qualifying noncredit courses.

3. For purposes of this subsection, a noncredit course:
   a. is one for which credit is not awarded, registration is required and payment changes hands;
   b. meets criteria established by the offering unit;
   c. incorporates content, teaching methods and attendance requirements appropriate to the students eligible to enroll;
   d. is taught or supervised by an instructor who has met institutional qualifications established by the offering unit; and
   e. recognizes participation of students appropriately.

4. Units offering noncredit courses must report the nature and extent of those activities to the Senior Vice President for Academic Affairs (or designee) annually.

Q. Accommodations (Section Q is in effect starting Fall semester 2005)

1. Introduction
   a. The values held most strongly by the University of Utah community are those of academic freedom and integrity as they are expressed collectively by the colleges and departments as well as individually through research and teaching and as they exist within the wider context of advanced study as commonly understood by all universities. The community also values diversity and respect, without which there can be no collegiality among faculty and students. In addition, the University community values individual rights and freedoms, including the right of each community member to adhere to individual systems of conscience, religion, and ethics. Finally, the University recognizes that with all rights
come responsibilities. The University works to uphold its collective values by fostering free speech, broadening fields of inquiry, and encouraging generation of new knowledge that challenges, shapes, and enriches our collective and individual understandings. This Section addresses course content accommodations.

b. Regardless of any accommodation that may be granted, students are responsible for satisfying all academic objectives, requirements and prerequisites as defined by the instructor and by the University. Because the burdens and appropriate criteria are different for scheduling accommodations and content accommodations, granting of one type of accommodation has no bearing on the granting of the other type.

2. Definitions
   a. Scheduling Accommodations permit students to be absent from class meetings or to arrange to fulfill assignments on days other than their scheduled dates. Such accommodations are addressed above in Section O.
   b. Content Accommodations are modifications of otherwise generally applicable reading, writing, viewing, listening, or performing requirements.
   c. Legislated Accommodations are modifications made in accordance with the Americans with Disabilities Act and other State and Federal statutes and are not included in this policy.

3. Content Accommodations
   a. Consistent with principles of academic freedom, the faculty, individually and collectively, has the responsibility for determining the content of the curriculum.
   b. Students are expected to take courses that will challenge them intellectually and personally. Students must understand and be able to articulate the ideas and theories that are important to the discourse within
and among academic disciplines. Personal disagreement with these ideas and theories or their implications is not sufficient grounds for requesting an accommodation. Accommodations requested on such grounds will not be granted. The University recognizes that students’ sincerely-held core beliefs may make it difficult for students to fulfill some requirements of some courses or majors. The University assumes no obligation to ensure that all students are able to complete any major.

c. It is the student's obligation to determine, before the last day to drop courses without penalty, when course requirements conflict with the student's sincerely-held core beliefs. If there is such a conflict, the student should consider dropping the class. A student who finds this solution impracticable may request a content accommodation from the instructor. Though the University provides, through this policy, a process by which a student may make such a request, the policy does not oblige the instructor to grant the request, except in those cases when a denial would be arbitrary and capricious or illegal. This request must be made to the instructor in writing, and the student must deliver a copy of the request to the office of the department Chair or, in the case of a single-department college, to the office of the Dean. The student's request must articulate the burden the requirement would place on the student's beliefs.

d. The instructor must respond to any accommodation request within two school days of receiving it. The response must be made in writing and a copy must be delivered to the office of the department Chair or, in the case of a single-department college, to the office of the Dean. In the event that the class does not meet on the day by which the Instructor must respond, the student must make arrangements to receive the response in a timely manner. Instructors are not required to grant content accommodations, as long as the subject course requirement has a reasonable relationship to a legitimate pedagogical goal, but they may do so, only if a reasonable alternative means of satisfying the curricular
requirement is available and only if that alternative is fully appropriate for meeting the academic objectives of the course, after considering the following:

i. the difficulty of administering an accommodation;

ii. the burden on the student's sincerely-held core belief;

iii. the importance of the particular requirement to the course.

In considering whether or not to make an accommodation, the faculty member may evaluate the sincerity but not the validity of the student's belief. If an instructor in a course makes content accommodations for any reason other than those covered under Section 2-c (Legislated Accommodations) of this policy, the instructor must similarly consider requests made during the same semester for the same course for accommodations based on conflicts with sincerely-held core beliefs.

Requests will be individually evaluated in relation to the above considerations; the granting of one such request will not guarantee that all requests will be granted. Because the criteria and requirements discussed above will apply differently to each instructor and to each course, accommodations granted by an instructor in one course will not affect decisions by the same instructor in other courses or by other instructors in the same or other courses.

e. If an instructor does not grant a content accommodation request, the student may appeal that denial in writing to the Dean of the college. If the Dean is the Instructor of the course, the student may appeal the denial to the cognizant Vice President.

f. The Dean (or Designee) will, in consultation with the faculty member and the department Chair (or Designee), act within two school days. The Dean (or Designee) will uphold the denial unless the Dean finds that the denial was arbitrary and capricious or illegal. In the case of single-
department colleges, the decision will rest with the Dean alone. The
Dean's determination shall be final as it pertains to the specific
accommodation request. Faculty challenges to the appropriateness of this
decision should follow established channels. The student may but is not
required to participate in these further reviews.

g. If the instructor disagrees with the dean's decision that the instructor's
denial of the student's request was arbitrary and capricious or illegal, the
instructor may not be compelled against the instructor's professional
judgment to administer the requested content accommodation for the
student. If the faculty instructor disagrees with the dean's decision that
the instructor's denial of the student's request was arbitrary and
capricious or illegal, the faculty instructor may not be compelled against
the instructor's professional judgment to administer the requested content
accommodation for the student. If the faculty instructor declines to
administer the accommodation, it will be the responsibility of the dean in
consultation with the department chair to design and administer the
alternative academic requirement for the student in order to satisfy the
student's content accommodation request. The dean (or dean's
appropriate designee) will determine the student's grade on that specific
alternative assignment and will report that grade to the course instructor,
who will incorporate that grade for the assignment into the total grade for
the course. The final grade in the course will be determined by the faculty
instructor and will be calculated in the same way as the final grade is
determined for all other students in the course.

h. If a student determines, after the last day to drop courses without penalty,
that course requirements may conflict with the student's sincerely-held
core beliefs, and the instructor has denied the student's written
accommodation request, the student may seek permission in writing from
the Dean to withdraw without receiving a W on their transcript and to
receive a refund of tuition for that class. In making this request the student must demonstrate the following:

i. that the student is in good standing in the course as defined by the department.

ii. that the student could not have made this determination prior to the last day to drop courses without penalty.

4. The Dean’s determination shall be final.

a. Decisions on accommodation requests may not be considered adversely to a faculty member in faculty code, Retention, Promotion and Tenure, or other proceedings as long as those decisions are made in good faith. Faculty may not take adverse action against students who make accommodation requests. The Dean or Department Chair may not take any adverse action against an instructor based on the instructor's decision to make or not make a content accommodation for a student.

b. Instructors who believe that course materials may conflict with students' deeply held core beliefs may include a statement in the syllabus for the course that advises students that some of the writings, lectures, films or presentations, or other requirements in the course include materials that may present such conflicts. However, this policy recognizes that Faculty will not always be able to predict in advance which if any materials may conflict with the beliefs of a given student or group of students.

R. Notes

1. The college of law, the school of medicine, and other academic units offering professional degrees, may be permitted to vary from the specific terms of this Policy for their professional degree curriculum when such variations are determined to be appropriate for compliance with accreditation requirements and principles applicable to such professional degree curriculum. Such variations shall be described in a supplemental rule (see Policy 1-001-II-F).
adopted pursuant to this Policy, which shall be approved by the faculty (and, if applicable, chairperson) of the academic unit, the cognizant college council and dean, and the cognizant senior vice president, and shall be published in a form accessible to the affected students and course instructors.

2. These standards are all based on a report of the American Council on Education adopted September 27, 1983 by ACE and November 1, 1983 by the Board of Directors, National University Continuing Education Association. Any changes reflect adaptation to our governance model. Some language is identical to the ACE recommendations; any additions specific to the University of Utah are the work of the Task Force. All other language is intended simply to translate the ACE and Task Force recommendations.

Sections IV- VII are for user information and are not subject to the approval of the Academic Senate or the Board of Trustees. The Institutional Policy Committee, the Policy Owner, or the Policy Officer may update these sections at any time.
